Herbs:	Prescription for Next Visit:	
Signature & Date:		

Case Assessment

Treatment Plan

# SOAP Notes

Treatment Plan

POINT & MODALITY PRESCRIPTION / DETAILS	
FACE & SCALP	
	Total Front: <input type="text"/> Back: <input type="text"/>
FRONT & THROAT	
	Total Front: <input type="text"/>
BACK & NECK / SHOULDERS (Scapula)	
	Total Back: <input type="text"/>
HANDS & ARMS / SHOULDERS (G-H & A-C)	
	Total Front: <input type="text"/> Back: <input type="text"/>
FEET & LEGS (incl: Hip & Gluteal areas)	
	Total Front: <input type="text"/> Back: <input type="text"/>
<b>NEEDLE TOTAL</b>	

# Next Week's Assignment

- The final assignment will involve a complete a) clinical report and b) narrative personal reflection to include:
  - All relevant SOAP notes: intake data, physical assessments if done, vitals, treatment protocols, herbal support if suggested, imaging or blood tests to be done if requested, ongoing treatment plan if discussed.
  - All data given in the interview, treatment and post-treatment wrap-up.
  - The personal reflection will be similar to the way in which you approached assignment 5a but will also **include how your perspectives and understanding of TCM as a model of health care have changed since the beginning of the course.**
